SUPPLEMENTARY INFORMATION:

Background

The first and previous sunset reviews of the *Orders*¹ were initiated on October 1, 2015.² In the final results of the first expedited review, Commerce determined that revocation of the *Orders* would likely lead to the continuation or recurrence of dumping.³

On December 1, 2021, Commerce published the notice of initiation of the second expedited sunset reviews of the *Orders*, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act).⁴ Commerce received a notice of intent to participate from Verso Corporation; Sappi North America, Inc.; and United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, AFL-CIO, CLC (collectively, domestic interested parties), within the deadline specified in 19 CFR 351.218(d)(1)(i).⁵ The domestic interested parties claimed interested party status under section 771(9)(C) of the Act, as domestic producers engaged in the production of certain coated paper in the United States.

Commerce received a substantive response from the domestic interested parties within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i).⁶ We received no substantive response from any other interested parties in this proceeding and no hearing was requested. As a result,

pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), Commerce conducted expedited (120-day) sunset reviews of the *Orders*.

Scope of the *Orders*

The scope of the *Orders* covers certain coated paper and paperboard⁷ in sheets suitable for high quality print graphics using sheet-fed presses; coated on one or both sides with kaolin (China or other clay), calcium carbonate, titanium dioxide, and/or other inorganic substances; with or without a binder; having a GE brightness level of 80 or higher,⁸ weighing not more than 340 grams per square meter; whether gloss grade, satin grade, matte grade, dull grade, or any other grade of finish; whether or not surface-colored, surface-decorated, printed (except as described below), embossed, or perforated; and irrespective of dimensions (certain coated paper).

Certain coated paper includes (a) coated free sheet paper and paperboard that meets this scope definition; (b) coated groundwood paper and paperboard produced from bleached chemi-thermo-mechanical pulp (BCTMP) that meets this scope definition; and (c) any other coated paper and paperboard that meets this scope definition.

Certain coated paper is typically (but not exclusively) used for printing multi-colored graphics for catalogues, books, magazines, envelopes, labels and wraps, greeting cards, and other commercial printing applications requiring high quality print graphics.

Specifically excluded from the scope are imports of paper and paperboard printed with final content printed text or graphics.

Imports of the subject merchandise are provided for under the following categories of the Harmonized Tariff Schedule of the United States (HTSUS): 4810.14.11, 4810.14.1900, 4810.14.2010, 4810.14.2090, 4810.14.5000, 4810.14.6000, 4810.14.70, 4810.19.1100,

⁷ “Paperboard” refers to certain coated paper that is heavier, thicker and more rigid than coated paper which otherwise meets the product description. In the context of certain coated paper, paperboard typically is referred to as “cover,” to distinguish it from “text.”

⁸ One of the key measurements of any grade of paper is brightness. Generally speaking, the brighter the paper the better the contrast between the paper and the ink. Brightness is measured using a GE Reflectance Scale, which measures the reflection of light off of a grade of paper. One is the lowest reflection, or what would be given to a totally black grade, and 100 is the brightest measured grade.

4810.19.1900, 4810.19.2010, 4810.19.2090, 4810.22.1000, 4810.22.50, 4810.22.6000, 4810.22.70, 4810.29.1000, 4810.29.5000, 4810.29.6000, 4810.29.70, 4810.32, 4810.39 and 4810.92. While HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of the *Orders* is dispositive.
